FOOTNOTES

1. This paper is based on data from the 1998, 1999, and 2000 waves of the Panel Study of Income Dynamics (PSID). The PSID is a longitudinal survey of the U.S. population, conducted by the University of Michigan. The 1998 wave is the first wave of the PSID that includes data on the health status of respondents. The 1999 and 2000 waves are the second and third waves of the PSID that include data on the health status of respondents. The PSID is a nationally representative survey of the U.S. population, and the data are available to researchers through the PSID Data User Guide and the PSID Data Archive.

2. The PSID is a longitudinal survey of the U.S. population, conducted by the University of Michigan. The PSID is a nationally representative survey of the U.S. population, and the data are available to researchers through the PSID Data User Guide and the PSID Data Archive.

3. The PSID is a longitudinal survey of the U.S. population, conducted by the University of Michigan. The PSID is a nationally representative survey of the U.S. population, and the data are available to researchers through the PSID Data User Guide and the PSID Data Archive.

4. The PSID is a longitudinal survey of the U.S. population, conducted by the University of Michigan. The PSID is a nationally representative survey of the U.S. population, and the data are available to researchers through the PSID Data User Guide and the PSID Data Archive.
